

**GLOBAL  
PRODUCT  
SOLUTIONS**

AVEM Water has been providing water treatment, transmission, distribution, and collection product solutions to contractors, developers, municipalities, and facility owners operating in international markets since 2012. Today, AVEM Water operates four locations to serve customers in our primary markets throughout the Caribbean and Central America.

## 100% Waterworks

## 100% International

We pride ourselves as the **definitive international waterworks supplier** by offering: competitive pricing, quality products, and superior support. Our 100% commitment to the international marketplace allows us to partner with the manufacturers we distribute for in a way that our competition can not.

Every product we sell is backed by our **Commitment to Quality**. We only distribute product for manufacturers that understand the demands of the regions we sell. This means that when you have a problem, you are guaranteed that AVEM Water will respond in a way that no other can.

## 100% Quality

# EXPECT MORE EXPECT

### SALES AND SUPPORT

Employees at AVEM Water have an average of 19 years of experience in the waterworks industry. It's what we know. It's what we live.

### THE COMPLETE LINE

AVEM Water supplies an industry leading waterworks line that caters to a variety of markets and applications to meet and exceed our customers specifications and quality demands.

### TECHNOLOGY

AVEM Water is committed to leading technology for the highest level of collaboration in the industry. Our dedication to the most advanced enterprise resource planning and customer resource management system means better efficiency and responsiveness to your organization.

### RELATIONSHIPS

"Above all, we are people dealing with people."

### VALUE ADDED SERVICES

We encourage our customers to think of these as EXPECTATIONS.

# AVEM

WATER

AVEM Water is a brand that embraces the future of International wholesale waterworks distribution. When customers see the AVEM Water logo on quotes, sales orders, shipping documents, and technical packages; they know their supply chain is in good hands.

Danny Moody, Raul Calderon, and TJ Witterman make up the executive team. Each have a unique but parallel mission and vision for the industry. Our unified mission is to positively influence our industry with everything we do. Our vision is to lead the global waterworks marketplace with progressive ideas and passionate spirits while empowering our employees and partners with tools for success.

How do we do it? We understand that above all, we are in a relationship business. Each individual at AVEM Water, no matter the role, is focused on the customer experience. We strive, every day, to better understand your business so we may serve your waterworks product needs.

## Approach to the Market

Our business is built on an approach to the marketplace that gives our customers a waterworks product buying experience un-achievable by others. How? We designed AVEM Water from the ground to do one thing. Sell 100% waterworks products in the international marketplace. Every building block of our business is used to serve our market better. We are NOT a big box distribution center, we are NOT an export trader. We ARE AVEM Water, your true international waterworks product partner.

## Above and beyond...

... is the term we hear often at AVEM Water when customers describe our service. Our dedicated approach to the market, support from our manufacturers, and our employees willingness to take the extra step for our customers allows us to exceed expectations with each order we ship and each relationship we build.

## Helping you succeed

Using AVEM Water as your primary waterworks supplier will change how you and your team achieve your goals. We hope that your organization will take advantage of the products, services, and extras we offer and see the difference in having AVEM Water as a member of your team. We look forward to proving ourselves to your organization on your next project.

# MARKETS

## TRANSMISSION MAINS

If you are responsible for owning, installing, or servicing water, sanitary, and reclaimed transmission main pipelines, then you know it's all about making sure you have a system that is leak free and dependable 24/7. AVEM Water is your international source for products relating to transmission main projects. Our team relies on years of installation and management experience to ensure that your team's expectations are exceeded.

## NON REVENUE WATER (NRW)

AVEM Water has become a leading supplier to contractors performing international NRW projects. We understand the high demands of these projects and work diligently with our customers to keep their projects on time and on budget. Combine all of this with our 100% commitment to the international market and it is easy to see why AVEM Water is the supplier you can count on for your Non Revenue Water project.

## HOUSING DEVELOPMENTS

AVEM Water prides itself as a leading supplier to contractors installing civil and waterworks utilities systems for housing developments. Our team has a long history in the construction of housing developments, giving us a deep understanding of what our customers need to get their jobs done on schedule and within budget. AVEM Water is the supplier you can count on for your next Housing Development project.

## HOTELS & RESORTS

AVEM Water has gained a solid reputation among Hotel and Resort contractors as the supplier who performs. We provide our customers with the broadest range of waterworks products to help consolidate buying, packaging, and shipping. Combine all of this with our 100% commitment to the international market and it is easy to see why AVEM Water is the supplier you can count on for your next Hotel and Resort project.

## WATER & WASTEWATER TREATMENT

AVEM Water combines our complete waterworks line, specialty water and wastewater treatment facility products, and value added extras to bring our customers an unparalleled supply solution. We understand the high demands of these projects and work diligently with your team to keep your project on time and on budget. AVEM Water is the supplier you can count on for your next water or wastewater facility project.

## ROAD & HIGHWAY

AVEM Water has gained the reputation as the go to supplier for Road and Highway projects due to our ability to assist contractors with a complete line of waterworks related products and our ability to supply an extensive range of associated products to keep your road and highway project on schedule and on budget.

# MARKETS

## GOLF COURSES

AVEM Water has extensive experience supplying pipe, valves, fittings, and associated products for Golf Course projects. We are also the go to supplier for many golf course managers to help keep their inventory of repair and maintenance products up to date.

## AIRPORTS & SEAPORTS

Construction of airports and seaports brings a unique set of challenges for contractors and suppliers. Extreme loads, harsh environments, and critical schedules come together to create the ultimate construction and supply challenge. AVEM Water has the experience to deal with these critically important products to ensure material requirements and schedules are met.

## COMMERCIAL

International commercial projects can encompass a variety of waterworks applications. AVEM Water is the supplier of choice to bring these applications together under one roof. Our experienced team is capable of working with multiple contractors and aspects of commercial projects to streamline the project supply chain.

## MINES
